Profile

Computer Science and Engineering graduate with experience as a Shopify Frontend Developer and strong skills in Python, SQL, Power BI, Excel, data analysis, machine learning, and web development. I have practical experience in client requirement analysis, workflow improvement, dashboarding, and data-driven application development. My career interests include Software Engineering, Data Analytics, Machine Learning, AI, and Business Analysis, where I can use my technical and analytical skills to solve real business problems.

Professional Experience

Shopify Frontend Developer | Softvence Agency (Betopia Group)

11/2025 – 05/2026

Mohakhali, Dhaka

- Analyzed client requirements and translated them into actionable workflow improvements.
- Communicated with international eCommerce clients from Europe and the USA.
- Optimized store workflows and user experience based on business needs and client feedback.
- Managed multiple client projects while maintaining delivery timelines.
- Collaborated with cross-functional teams to ensure smooth project execution.
- Supported data-informed decisions to improve website performance and customer experience.

Skills

Data Analysis:

Advanced Excel, Power BI, Tableau, SQL, Data Cleaning & Visualization, Reporting & Dashboarding

AI Tools:

ChatGPT, Perplexity, Claude, AI-assisted Research, AI-assisted Reporting

Machine Learning

- Regression, Classification Algorithms
- Data Preprocessing
- Model Evaluation (Accuracy, Precision, Recall, F1 Score, ROC-AUC)

Programming:

Python, R, SQL, HTML, CSS, JS, React

Projects

Anomaly Detection in ECG Signals for Heart Disease Prediction Using Deep Learning Techniques

01/2025 – 04/2026

- Built a deep learning-based ECG anomaly detection model using CNN, BiLSTM, and Multi-Head Self Attention mechanisms for heart disease prediction.
- Developed a Flask-based healthcare web application with patient, doctor, and admin workflows, prediction history, appointment handling, and report generation.

Project Preview: [Click Here](#) 

Power BI Dashboard Portfolio Preview

Tools: Power BI, Excel, KPI Analysis, Data Visualization

- Created dashboard previews to present KPIs, business insights, and performance trends.
- Designed visual reports to support data-driven decision-making.

Project Preview: [Click Here](#) 

Time-Series Forecasting of Carbon Monoxide and Nitrogen Dioxide Levels

06/2025 – 11/2025

Tools: Python, Forecasting, Data Analysis

- Analyzed environmental time-series data.
- Worked with forecasting techniques to identify future trends.

Education

B.Sc. in Computer Science and Engineering, *Green University of Bangladesh*

01/2022 – 01/2026
Dhaka, Bangladesh

Key Strengths

- Strong analytical and problem-solving skills
- Ability to interpret data and generate insights
- Experience working with international clients
- Strong communication and reporting skills
- Fast learner with adaptability to business workflows

Languages

- English
- Bengali
